Civil Action No.: 3:13-cv-07871-

**DECLARATION OF
TRENT CHRISTIANSON
IN SUPPORT OF OPPOSITION
TO PLAINTIFFS' NOTICE OF
MOTION FOR FINAL
SETTLEMENT APPROVAL**

I, Trent Christianson, of full age, hereby declare under penalty of perjury pursuant to 28 U.S.C. § 1746 as follows:

1. I am the President of Christianson Air Conditioning and Plumbing, LLC ("Christianson"), and am fully familiar with the facts contained herein based upon my personal knowledge.

2. I make this declaration on behalf of Christianson in support of Christianson's Opposition to the Proposed Class Action Certification and Settlement between Plaintiffs and Defendant NIBCO, Inc. (the "Settlement").

3. Christianson is a limited liability company organized under the laws of the State of Texas and is in the business of installing plumbing, air conditioning and

heating systems in residential homes in Texas, in part, pursuant to agreements with recognized national home builders like D.R. Horton and Lennar.

4. From approximately 2008 to 2013, Christianson purchased and installed NIBCO PEX¹ Tubing in approximately 16,900 homes in the greater metro areas of San Antonio and Austin, Texas (*i.e.*, approximately 7,852 homes in the San Antonio metro area and 9,048 homes in the Austin metro area).

5. A true and correct copy of Christianson's business records containing a list of all homes plumbed with NIBCO PEX in the San Antonio and Austin metro areas are attached to Christianson's Opposition as Exhibits A and B, respectively. These records were made at or near the time of the NIBCO PEX installation by or from information transmitted by someone with knowledge, the records were kept in the course of a regularly conducted activity of Christianson, and the making of the records was a regular practice of that activity.

6. Pursuant to §E(30) of the Settlement, Christianson hereby gives notice that: (1) Christianson is currently a class member² for the NIBCO PEX 1006 homes listed on Exhibits A and B except for those specifically excluded by the Settlement; (2) I plan to attend and appear at the Final Hearing along with Christianson's counsel of

¹ "NIBCO PEX" refers to plastic plumbing pipe installed for potable water use in residential homes manufactured by NIBCO.

² Christianson will not be a class member subsequent to its official opt out from the class.

record; (3) Christianson objects to the Settlement Agreement for the reasons set forth in the Opposition and any further arguments set forth in supplemental motions or briefing or as presented at the Final Approval Hearing; and, (4) Christianson's may be contacted at Christianson Air Conditioning and Plumbing, LLC, 1950 Louis Henna Blvd., Round Rock, TX 78664; (512) 246-5400.

7. Before, during, and/or after the installation of NIBCO PEX, NIBCO, and those acting by or on its behalf, made numerous representations to Christianson via product literature, telephone calls, emails, and in-person meetings. The representations concerned NIBCO PEX including, but not limited to, its compliance with applicable standards and certifications and its ability to withstand certain known conditions such as the water treatment method (*e.g.*, chlorine), temperature, pressure and use in aggressive water conditions.

8. Since the NIBCO PEX has been installed, Christianson has received complaints of 3,791 leaks in 1148 homes, all of which are located in water districts that disinfect potable water using chlorine. A true and correct copy of Christianson's business records of reported leaks in homes plumbed with NIBCO PEX and the disinfectant used in the related water districts the homes are located in are attached to Christianson's Opposition as Exhibit C. These records were made at or near the time by or from information transmitted by someone with knowledge, the records

were kept in the course of a regularly conducted activity of Christianson, and the making of the records was a regular practice of that activity.

9. As of January 31, 2019, out of pocket costs to Christianson to repair and repipe leaks total over \$2 million, not including damages resulting from administrative costs in investigating, administering, responding to and documenting leaks, paying insurance deductibles, attorney's fees in responding to claims and demands made by homeowners and homebuilders, homebuilder back charges, business interruption expenses, and damage to its business reputation.

10. Christianson has asserted claims against NIBCO seeking to recover damages for costs incurred including punitive damages in two state district courts in Texas in the following styled cases:

Cause No. D-1-GN-16-005797; *Christianson Air Conditioning and Plumbing, LLC v. NIBCO, Inc., MRK Manufacturer's Sales, Inc. and Morrison Supply Company, LLC*; In the 419th Judicial District Court, Travis County, Texas

Cause No. 18-0450-C368; *Continental Homes of Texas, LP v. NIBCO, et al*; in the 368th Judicial District Court of Williamson County, Texas

11. By way of example, Christianson has been sued by homeowners for claims arising out of the NIBCO PEX failures in cases like the following:

12. Based on the foregoing, and for all the reasons stated in Christianson's Opposition, and in any supplemental motions or briefing or as presented at the Final
